

## Q2 - Method Assessment

This questionnaire is to collect your impressions about the method that you have applied in the first assignment. The answers to this questionnaire are NOT used by any means to evaluate/grade them.

First name: \_\_\_\_\_

Last name: \_\_\_\_\_

### Part I - Method (31 questions)

Read questions carefully. The positive and negative statements of the questions are mixed. The questionnaire has an opposing statements format, so

If you agree strongly with the statement on the left, check the leftmost box (1).

If you agree, but less strongly, with the left statement, check box #2 from the left (2).

If you agree with neither statement, or find them equally correct, check the middle box (3).

If you agree, but less strongly, with the right statement, check box #2 from the right (4).

If you agree strongly with the statement on the right, check the rightmost box (5).

N		1 2 3 4 5	
1.	The method defines the <b>right level of granularity</b> of asset, security risk and security control.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	The method defines the <b>wrong level of granularity</b> of asset, security risk and security control.
2.	A <b>catalog of threats</b> would have made <b>harder</b> the identification of threats with this method.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	A <b>catalog of threats</b> would have made <b>easier</b> the identification of threats with this method.
3.	A <b>catalog of security controls</b> would have made <b>easier</b> the identification of security controls with this method.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	A <b>catalog of security controls</b> would have made <b>harder</b> the identification of security controls with this method.
4.	Overall, I think the method <b>provide</b> an effective solution to the identification of <b>security risks</b>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Overall, I think the method <b>does not provide</b> an effective solution to the identification of <b>security risks</b>
5.	Overall, I think the method <b>does not provide</b> an effective solution to the identification of <b>security controls</b>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Overall, I think the method <b>provides</b> an effective solution to the identification of <b>security controls</b>
6.	I found the method <b>easy to adopt and use</b> to different contexts.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	I found the method <b>hard to adopt and use</b> to different contexts.
7.	Overall, I found this method <b>difficult to use</b>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Overall, I found this method <b>easy to use</b>
8.	Overall, I found this method to be <b>useless</b>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Overall, I found this method to be <b>useful</b>

N		1 2 3 4 5	
9.	I found the procedure for applying the method <b>complex and difficult</b> to follow	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	I found the procedure for applying the method <b>simple and easy</b> to follow
10.	Using this method would make <b>harder</b> to identify <b>security risks specific</b> for the context.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Using this method would make <b>easier</b> to identify <b>security risks specific</b> for the context.
11.	Using this method would make <b>easier</b> to identify security <b>controls specific</b> for the context.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Using this method would make <b>harder</b> to identify security <b>controls specific</b> for the context.
12.	I believe that this method would <b>reduce</b> the effort required to identify <b>security risks</b> of complex systems	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	I believe that this method would <b>increase</b> the effort required to identify <b>security risk</b> of complex systems
13.	I believe that this method would <b>increase</b> the effort required to identify <b>security controls</b> of complex systems	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	I believe that this method would <b>reduce</b> the effort required to identify <b>security controls</b> of complex systems
14.	Using this method would make <b>harder</b> to find the most <b>complete set of security risks</b> .	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Using this method would make <b>easier</b> to find the most <b>complete set of security risks</b> .
15.	If working as a freelance consultant for a customer who needs help in identification of <b>security risks</b> to his software, I <b>would not use</b> the method in discussions with that customer	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	If working as a freelance consultant for a customer who needs help in identification of <b>security risks</b> to his software, I <b>would use</b> the method in discussions with that customer
16.	If working as a freelance consultant for a customer who needs help in identification of <b>security controls</b> to his software, I <b>would use</b> the method in discussions with that customer	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	If working as a freelance consultant for a customer who needs help in identification of <b>security controls</b> to his software, I <b>would not use</b> the method in discussions with that customer
17.	Using this method would <b>make harder to compare security risks</b> identified in the risk assessment with security risks identified by other methods.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Using this method would <b>make easier to compare security risks</b> identified in the risk assessment with security risks identified by other methods.
18.	Using this method would <b>make easier to compare security controls</b> identified in the risk assessment with security controls identified by other methods.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Using this method would <b>make harder to compare security controls</b> identified in the risk assessment with security controls identified by other methods.
19.	If a company I'm employed by in the future discusses what technique to introduce for identification of <b>security risks</b> and someone suggests the method, I <b>would be against</b> that	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	If a company I'm employed by in the future discusses what technique to introduce for identification of <b>security risks</b> and someone suggests the method, I <b>would support</b> that

N		1 2 3 4 5	
20.	If a company I'm employed by in the future discusses what technique to introduce for <b>security controls</b> identification and someone suggests the method, I <b>would support</b> that	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	If a company I'm employed by in the future discusses what technique to introduce for identification of <b>security controls</b> and someone suggests the method, I <b>would be against</b> that
21.	Using this method would <b>make easier to update</b> the risk assessment when something changes.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Using this method would <b>make harder to update</b> the risk assessment when something changes.
22.	The method <b>makes the traceability</b> of security controls down to security risk and assets <b>harder</b> .	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	The method <b>makes the traceability</b> of security controls down to security risk and assets <b>easier</b> .
23.	If I need to identify <b>security risks</b> in future project at work, I <b>would avoid</b> the method if possible	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	If I need to identify <b>security risks</b> in a future project at work, I <b>would use</b> the method if possible
24.	If I need to identify <b>security controls</b> in a future project at work, I <b>would use</b> the method if possible	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	If I need to identify <b>security controls</b> in a future project at work, I <b>would avoid</b> the method if possible
25.	I believe that this method would make <b>easier</b> to find cost effective <b>mitigation of security risks</b> to an acceptable level	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	I believe that this method would make <b>harder</b> to find cost effective <b>mitigation of security risks</b> to an acceptable level
26.	The method made me <b>more productive</b> in identification of <b>security risks</b>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	The method made me <b>less productive</b> in identification of <b>security risks</b>
27.	I found the method <b>difficult to learn</b>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	I found the method <b>easy to learn</b>
28.	If I need to identify <b>security risks</b> in a future study project, I <b>would use</b> the method if possible	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	If I need to identify <b>security risks</b> in a future study project, I <b>would avoid</b> the method if possible
29.	If I need to identify <b>security controls</b> in a future study project, I <b>would avoid</b> the method if possible	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	If I need to identify <b>security controls</b> in a future study project, I <b>would use</b> the method if possible
30.	I am <b>not confident</b> that I am now competent to apply this method in practice	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	I am <b>confident</b> that I am now competent to apply this method in practice
31.	The method will be <b>easy to remember</b> (in case I must use it again in the future)	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	The method will be <b>hard to remember</b> (in case I must use it again in the future)
